## Community Update 1-26-2021

Indoor visitation is still on hold for now until we receive test results for two residents and the exposed individual. A caregiver from Tribute Homecare Services had a possible exposure (Tribute is contracted with certain residents from our community). Due to this we have to put a pause on indoor visits including the sunporch until we are cleared by the Baltimore County Health Department.

We believe there is a low-risk of exposure for residents and staff at College Manor. We will provide more updates as soon as possible. Please email Bobby Renaud [rmr@collegemanor.com](mailto:rmr@collegemanor.com) if you have questions.
